## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-18 are allowed. The following is an examiner's statement of reasons for allowance: As noted in the Remarks section of the amendment (especially at pages 6-7) applicant's claimed invention is directed toward embedding a semi-fragile, dual component watermark, with a relatively more fragile component of the dual component watermark being sufficiently high to reveal alteration at a video block level, and an embedding capacity of a relatively more robust component of the dual component watermark being sufficiently low to ensure that the robust component can be accessed at a higher group level. The prior art of record did not teach or suggest the particular features of the claims.

### ***Conclusion***
